

For Sale, Land, Larnaca, Softades, 31,440m²

Right at the water's edge in Softades, two
touristic fields...

For Sale : **€ 4,565,000**

Description
Right at the water's edge in Softades, two touristic fields meet the coastline directly, with uninterrupted views out across the sea. Softades Beach and Caretta Beach lie right next to them, so the shore is not a destination here but part of the setting itself.

Together the fields cover 31,440 m² of seafront ground in a touristic zone. That scale gives room for a tourist project shaped around the sea: holiday apartments, villas or maisonettes, a boutique hotel or a resort complex. Every one of these ideas starts from the same open outlook over the water.

The land sits between Larnaca and the coastal village of Zygi, with the village of Mazotos a short drive away for restaurants, traditional taverns and everyday shopping. Larnaca International Airport is a drive away, so guests and visitors can arrive with ease.

Picture the first morning light on the water, seen from land that runs straight down to the coast. Here, the sea is the view, the neighbour and the reason to build.
