

For Sale, Land, Larnaca, Softades, 16,660m²

Sea views open out from this large touristic field
in Softad...

For Sale : **€ 1,950,000**

Description
Sea views open out from this large touristic field in Softades, set a short distance from the coastline. Its frontage faces onto government land, which keeps the outlook towards the water open and gives the site a welcome sense of privacy.

With 16,660 m² to work with, the land offers generous scope for tourist use. Holiday apartments, villas, maisonettes, a boutique hotel or a resort complex could all take shape here, each planned around the coast and those open views.

The field sits midway between Larnaca and the coastal village of Zygi. Mazotos is a short drive away, as are restaurants and traditional taverns, and Camel Park, a popular family outing, is close by too. Larnaca International Airport is within a drive, so guests arriving by air can reach the coast without a long journey.

A sizeable stretch of coastal land with the sea in view and room to bring a holiday project to life.
