Description
In the Larnaca countryside at Choirokoitia, three adjacent fields come together as one large holding of 74,249 m². Because they lie side by side, they can be farmed or planted as a single piece of agricultural land.

The fields sit a short distance from the village of Agios Theodoros, and Skarinou is also a short drive away. The surrounding area has easy access to the motorway network linking Nicosia, Limassol and Larnaca. This is a sizeable stretch of agricultural land with room for farming across all three fields.
