

For Sale, Land, Nicosia, Agios Dometios, Agios Pavlos, 716m²

Shops and supermarkets sit right beside this commercial plot...

For Sale : **€ 405,000**

Description
Shops and supermarkets sit right beside this commercial plot in Agios Pavlos, a quarter of Agios Dometios with easy access to the centre of Nicosia. Restaurants, cafés and schools are all within walking distance, so the area around it is part of everyday local life.

The land covers 716 m² and fronts the road, giving it direct road access. Its commercial zoning points to business use, and the setting suits offices or a mixed-use building that brings together retail, offices and apartments. An abandoned house stands on the plot.

Picture shopfronts along the road, with offices and apartments sharing the same address. Neighbours could pick up groceries next door, meet for coffee a short walk away and reach the heart of the capital with ease. It is a location that already works around the clock for the people who live and work nearby.

A commercial plot with road frontage, a settled neighbourhood around it and the city centre close at hand: an address that gives a well-planned building a natural place to belong.
