Description
Village life in Theletra sits right on the doorstep of this residential land in the Paphos district, with the village centre within walking distance. Kathikas village is a short way off, and the sea is a drive away when the coast calls.

Covering 3,679 m², the land is zoned for residential use and gives room for a home with generous space around it. It runs alongside a registered path on one side, which marks a clear edge to the plot.

Picture an unhurried morning: a walk into the village centre for coffee, then back to your own land to plan the home you want to build. Local cafés, restaurants and agrotouristic houses are close by, so everyday pleasures and the warmth of the village are never far away. Shops and supermarkets are a short drive off.

A sizeable residential plot, a village centre you can walk to and Kathikas nearby make this a place to start a home on solid, welcoming ground.
