Agia Paraskevi in Lakatameia offers a residential
setting wi...

For Sale : **€ 180,000**

Description
Agia Paraskevi in Lakatameia offers a residential setting with an easy link to the wider Nicosia area. This sizeable piece of residential land sits within it, ready for someone with a clear idea of what they want to create.

Covering 2,119 m², the land fronts a local street, which gives it direct road access. Its residential zoning points naturally to a home. Its size also opens further options: there is scope to divide it into plots or to plan a housing project, so the land can follow the vision you bring to it.

Everyday life stays close at hand. Schools and shops are a short drive away, as is Strovolos, and the motorway is easy to reach. Journeys across Nicosia stay straightforward, whether for work, errands or time with family.

Picture a project taking shape here, part of the life of Lakatameia yet well connected to everything around it. Generous land, a street frontage and a flexible residential outlook make a compelling starting point.
