a villa...

For Sale : **€ 29,000**

Description
Picture children setting off for school on foot, and a village centre only a short drive away. In Agia Varvara, in the Nicosia district, this residential field offers the groundwork for a future home within the everyday life of a village community.

At 2,342 m², the land is a sizeable piece of residential ground, with room for a home and for the life you shape around it. Daily needs are close at hand, so the routines of family life can stay simple and local. A residential zoning gives the land a clear sense of purpose, and the setting lets you imagine mornings that begin with the familiar sounds of the village and evenings spent close to the people and places you know.

The land has no direct road access. The sale is of a 50% share of the field.

Schools within walking distance and a village that feels like home: Agia Varvara is a place where a home could truly belong.
