For Sale : **€ 575,000**

Description
Agia Varvara is a village community in the Nicosia district. Its village centre is a short drive away, as are the neighbouring villages of Kotsiatis and Mathiatis. Away from the centre lies this large field of 25,419 m², a broad stretch of land with an uncomplicated character.

Two uses share the land. Part of it lies in an industrial zone, suited to business use, and part is agricultural, suited to farming. Having both on one holding gives a buyer two different ways to put the land to work.

The field has no direct road access.

What remains is a sizeable piece of ground in a village setting, with room for a business on its industrial part and for cultivation on its agricultural part. The life of a village community and its neighbours is close at hand.
