Description
In a residential part of Agios Nikolaos, Lakatameia, this large parcel of land sits within walking distance of schools and green parks. It is a setting where much of daily life can happen on foot. At 2,156 m², the land is zoned for residential use and has direct road access along a generous frontage, a clear starting point for planning. There is room here for a home shaped around your own brief, or for a residential project, with your design priorities set from the very beginning. Picture the school run as a short walk, an afternoon spent in the park nearby, and evenings coming back to a home built exactly the way you wanted it. Set within Lakatameia itself, this is a chance to put down roots and build something of your own from the ground up.
