For Sale : **€ 4,600,000**

Description
In the established residential neighbourhood of Agios Vasileios in Strovolos, this five-bedroom house sits on 16,895 m² of land, taking in its own grounds and two adjoining fields. Outside, a swimming pool, a veranda and a large garden set the scene for long afternoons in the open air, joined by an auxiliary building and garage.

Inside, 600 m² of living space unfolds across two levels. The ground floor holds a living room, a dining room, a bar and a library, a kitchen with its own dining area, a cellar, a guest toilet and four en-suite bedrooms. The lower level adds an en-suite guest bedroom, a maid's room, a laundry room and covered parking.

Everyday life stays close at hand. Schools are within walking distance, the American Medical Center stands right beside the grounds, and Nicosia city centre is within easy reach.

This is a generous home on a sizeable stretch of land, with room to entertain, to read, to swim and simply to spread out.
