For Sale : **€ 341,000**

Description
The sea lies only a short way off and the centre of Kato Pyrgos is close by, giving this sizeable field of 7,832 m² a setting that brings village and coast together. The land sits in a residential zone, a generous canvas for a future home.

A long frontage along a road on one side gives the field direct road access. Around it, open parcels of land sit alongside several residential developments. The zoning allows a home of up to two floors, with room to breathe around it.

Village life is easy to enjoy from here. The neighbouring villages of Pigenia and Pano Pyrgos are a short drive away, and Gialia Monastery is within a drive for a day out.

Let this be the ground where your own home begins.
