For Sale : **€ 331,000**

Description
In Anavargos, among new homes and open parcels of land, this large field sits within a residential zone, a short drive from the village centre and within easy reach of Paphos town. It is a setting where a neighbourhood is still taking shape around you.

The whole field measures 14,714 m², a sizeable stretch of land with room for a home of up to two floors. It has direct road access, with a long frontage on a registered road and a shorter frontage on a second road, so arriving and leaving is straightforward.

Picture a family home rising here, with a residential neighbourhood around it, the village centre close by for everyday errands, and the International School of Paphos a short drive away for the morning school run. It is land that lets you plan a life around Anavargos and the town beyond.

The sale is for a 1/3 share of the field. Large, residential and set right on the road, it offers a promising starting point for a home in Anavargos.
