Description
A short walk from the heart of Alaminos, this field sits where village life gives way to farmland. The village centre and schools are within walking distance, and the land around it mixes fields with a scattering of homes, an authentic village setting with everyday life close at hand.

The field covers 11,372 m² of gently sloping ground with an irregular outline. It has direct road access from a public road along one side, and water, electricity and telecommunications are available, which keeps the first steps of planning simple.

Set within a residential zone, the land offers room for a home of up to two floors, with plenty of ground left around it to shape as you wish. Picture an easy morning walk to the village centre, then a return to your own generous piece of Alaminos. Neighbouring villages such as Kofinou and Anafotida are a short drive away, and Larnaca International Airport is about 15 km away.

A large residential plot within reach of the village centre on foot: a place to begin something of your own in Alaminos.
