For Sale : **€ 325,000**

Description
Close to the centre of Dali, in the Panagia Evangelistria quarter, this residential field offers 5,552 m² of open ground in a neighbourhood where undeveloped parcels sit alongside a scattering of homes. It is a setting with room to breathe, yet still tied to village life.

The land lies in a residential zone, so it offers room for a home of up to two floors with generous ground around it. Frontage onto a road gives it direct road access, which makes it easier to plan how you would arrive and how the house would sit on the land.

Daily life stays close at hand. The village centre is only a short distance away, and the heritage site of Idalion is a short drive off, a reminder of the long history of the area you would call home.

A large residential field near Dali's centre, it gives you the space to shape a home around your own idea of village living.
