Description
Close to the village of Laneia, this sizeable residential field looks out over the surrounding landscape. Restaurants and cafés are within walking distance, so an evening coffee or a village meal is never far away.

The residential zoning allows a home of up to two floors. The land slopes and has an irregular shape, and it has a long frontage onto a public road, which gives it direct road access. Electricity, water and telecommunications can potentially be connected. Around it, homes sit alongside plots that are still open, giving the setting a settled but unhurried feel.

Imagine planning a home here, shaped around the slope so that every room makes the most of the view across the countryside. Supermarkets, schools and the village centre are a short drive away, and the neighbouring villages of Doros and Monagri are also close by.

A planned new road will affect around 5,941 m² of the land.

An open outlook, village cafés within reach on foot and room for a home in the hills of Limassol: well worth a visit.
