For Sale : **€ 285,000**

Description
Only a short stroll from the coastline at Kato Pyrgos, this sizeable residential field sits among open, undeveloped parcels where the sea is never far from mind. Restaurants and cafés are within walking distance, so an evening meal or a morning coffee in the village can begin with a gentle walk.

The land covers 4,683 m², with an irregular shape and a sloping surface. Its residential zoning offers room for a home of up to two floors, a place to settle close to the shore with the rhythm of village life around you. The village centre, supermarkets and shops are a short drive away, and the neighbouring village of Pano Pyrgos is close by too.

The land has no direct road access.

For anyone drawn to the coast and to an unhurried village setting, this is land where both sit within easy walking reach.
