Village life in Ormideia surrounds this residential plot, wi...

For Sale : **€ 265,000**

Description
Village life in Ormideia surrounds this residential plot, with the village centre and everyday shops only a short drive away. It is a setting shaped by homes and the familiar routines of a Larnaca district village.

The land covers 420 m² and has a smooth, flat surface, set among residential developments. Its residential zoning allows room for a home of up to two floors, and the site can be connected to electricity, water and telecommunications.

Picture planning a family home from the ground up on level land, with neighbouring houses around you. Mornings could start with a quick run to the village for bread and coffee, and afternoons could bring the school run, with schools also a short drive away.

Level ground, a residential neighbourhood and Ormideia's village life within easy reach make this a plot worth seeing in person.
