Ineia sets the scene: a Paphos village where open land meets...

For Sale : **€ 265,000**

**Description**
Ineia sets the scene: a Paphos village where open land meets a scattering of homes, in a relaxed rural setting. Here, a sizeable field of 8,344 m² gives you room to picture a home of your own, surrounded by space on every side.

The land is zoned for residential use and allows a home of up to two floors. Its surface slopes slightly and its shape is irregular. It has direct road access along a dirt road on one side, and connections to electricity, water and telecommunications are possible.

Life in the village stays within easy reach, with the village centre and neighbouring Drouseia a short drive away. A longer drive brings you to the coast at Toxeftra beach, and Paphos International Airport is about 25 km away.

A large stretch of residential land, a village setting and the sea within a drive make an uncomplicated starting point for a new chapter in Ineia.
