Description
In Geri, a short drive from Latsia, a residential plot of 832 m² offers room for a home of your own. Houses stand alongside undeveloped parcels in the immediate area, giving the neighbourhood a residential character that is still taking shape.

The land lies in a residential zone, where a home of up to two floors may be built, and it has direct road access. Starting from the ground up lets you settle your own design priorities from the very first sketch: how the rooms flow into one another and where the living spaces open up.

Everyday life has its anchors close by. A sports venue is within walking distance, and Latsia is a short drive away.

A sizeable piece of residential land in Geri, ready for the plans you have been carrying in your head.
