For Sale : **€ 255,000**

Description
On a corner in Agios Nikolaos, Lakatameia, this level residential plot lays the groundwork for a home of your own. Supermarkets and shops are within walking distance, and the area enjoys very good connections to Nicosia city centre and the city's other main municipalities.

Its 1,216 m² form a neat rectangle with a flat, even surface. Thanks to its corner position, it has road frontage on two sides and direct road access. Water, electricity and telecommunications already serve the plot.

Residential zoning allows a home of up to two floors. Imagine a house standing squarely on level ground, with daily errands a short stroll away and neighbouring Strovolos a short drive off. Around it, homes sit alongside plots still waiting to be built, giving a residential setting where your own design can find its place.

A level, connected corner plot in Lakatameia, waiting for the home you have in mind.
