Description
Village life sets the tone here. Kornos, with its cafés and everyday shops, is a short drive away, and the neighbouring villages of Delikipos and Pyrga are close by too. Around the land, open parcels mix with a scattering of homes, giving the area a settled residential feel with plenty of open ground. The field covers 7,693 m² of flat, even ground with an irregular outline. It lies in a residential zone, so there is room for a home of up to two floors. Electricity, water and telecommunications can potentially be connected. Imagine a home rising on level land, with the village centre a short drive away for a morning coffee or the weekly shop. The field has no direct road access. What remains is a large, level stretch of residential land on the village side of Larnaca district, with Kornos close at hand.
