Close to the GSP Stadium in Strovolos lies an area known for...

For Sale : **€ 183,000**

Description
Close to the GSP Stadium in Strovolos lies an area known for its fine homes, where many luxurious villas have already risen. This corner plot of 653 m² sits within that established residential setting, in the Apostolos Varnavas and Agios Makarios quarter.

The land is flat and even, and its corner position adds to its appeal. Electricity, water and telecommunications already serve the plot. Its residential zoning gives room for a family home of up to two floors, designed around the way you want to live.

Picture everyday life here: supermarkets and shops within walking distance for the daily errands, and the Nicosia–Limassol motorway close by for easy journeys into the city and the surrounding areas. Latsia is a neighbour, and schools, parks and cafés are all a short drive away.

A level corner plot in the GSP area, waiting for the home you have in mind.
