Within the village of Ormideia, holiday homes and
family hou...

For Sale : **€ 180,000**

Description
Within the village of Ormideia, holiday homes and family houses share the landscape with open parcels of land. Here lies a sizeable field of 5,017 m², zoned for residential use, with the village centre and its everyday shops a short drive away.

The land fronts a public road, so it has direct road access, and electricity, water and telecommunications can be connected. Its residential zoning leaves room for a home of up to two floors. It is easy to imagine a house taking shape on this ground, with village life close at hand and neighbouring homes already part of the scene.

This is land with a clear residential purpose in a lived-in Larnaca village, offering a generous canvas for your plans. A distribution agreement is in place. The sale covers a 5/6 share of the field.

A large piece of Ormideia, ready for a home to grow from your ideas.
