

For Sale, Land, Field, Nicosia, Agioi Trimithias

Open, level ground and a residential setting give this field...

For Sale : **€ 175,000**

Description
Open, level ground and a residential setting give this field in Agioi Trimithias a calm, unhurried feel. It sits outside the village centre, among scattered homes and undeveloped parcels, where the pace of village life still sets the tone.

At 5,129 m², the land is large and flat across its whole surface, with an irregular outline. It lies in a residential zone, so there is room for a home here. Water, electricity and telecommunications could potentially be connected. The land has no direct road access.

Everyday needs are close at hand: schools and the neighbouring village of Paliometocho are a short drive away, which helps village living fit around family routines.

A wide, even stretch of land in a village setting, with the space to picture a home of your own taking shape.
