

For Sale, Land, Field, Limassol, Platres Kato

Pine trees, scattered village homes and open land
frame this...

For Sale : **€ 175,000**

Description
Pine trees, scattered village homes and open land frame this field, set just beyond the heart of Kato Platres. Restaurants and cafés are within walking distance, and the woodland of Troodos National Forest Park lies a short drive away, so village life and mountain nature sit close at hand.

The land covers 15,385 m² of sloping, irregular ground within a residential zone, giving room for a home of up to two floors. Electricity, water and telecommunications can be connected. The land has no direct road access.

Imagine planning a home here, among the pines of a mountain village, with an easy stroll to a café in the community and the forest trails of Troodos within easy reach for a weekend outing. The slope and the sizeable area leave space to think carefully about where a house would sit within its surroundings.

The sale is of a 2/3 share of the field. A piece of residential land in Kato Platres, close to the village and surrounded by pine-scattered countryside.
