For Sale : **€ 177,000**

Description
Two adjoining fields form this agricultural holding in the countryside of Agioi Trimithias, in the Nicosia district. Together they cover 8,588 m² among other farmland and undeveloped parcels, with the villages of Paliometocho and Anaguia a short drive away.

Zoned for agriculture, the ground suits farming or planting. It has no direct road access. Because the two parcels lie side by side, they give one continuous area of agricultural land to cultivate or keep as farmland.
