**Description**
Close to the centre of Vavla, this field covers 22,074 m² of open countryside. The neighbouring villages of Ora and Lageia are a short drive away. The surrounding area is a mix of undeveloped land and scattered homes. The land has two zonings: the agricultural part suits farming or planting, and the residential part has room for a home. It has an irregular shape and uneven ground, and water, electricity and telecommunications could be connected. The land has no direct road access. It is a sizeable piece of open land in the Vavla countryside.
