For Sale : **€ 160,000**

Description
Just outside Melini village, the landscape opens into undeveloped fields and a few scattered homes, and here stands a three-bedroom house on grounds of 3,680 m² spread across two fields. There is space to breathe, with the village close at hand.

The house offers about 200 m² of living space, with a basement of around 90 m² below for extra room. The house is unfinished, so the finishes and the final character of each room are still yours to decide. The land has no direct road access.

Picture the work complete: three bedrooms under one roof, generous grounds around them and the open fields of the area beyond. Everyday errands lead to Eptagoneia, a short drive away, and the heritage site of Fikardou makes an easy outing within a longer drive.

A spacious village house on sizeable land, waiting for the hands that will bring it to life on the edge of Melini.
