For Sale : **€ 146,000**

Description
A short walk from the heart of Oroklini, this field sits among homes and a few open parcels, with the village church close by and everyday village life within easy reach. Restaurants and cafés lie right next door, and schools and shops are within walking distance.

Zoned for residential use, the land offers room for a home of up to two floors. The plot will have road frontage along one side. Beyond the village, Larnaca is a short drive away, and the motorway towards Agia Napa is easy to reach.

The sale is a 503/776 share of the field. A distribution agreement assigns this share to its own plot, which is still being divided.

Picture a morning coffee at the café next door, and a home of your own taking shape a few steps from the village centre.
