For Sale : **€ 140,000**

Description
The sea is a short walk from this flat field in Zygi, and the village's restaurants and cafés are within walking distance too. Picture a morning swim, an afternoon on the beach and a coffee at a nearby café, all without needing the car.

The land lies in a residential zone, with a smooth, level surface and direct road access along one side. Around it, open parcels sit alongside several residential developments, giving a settled yet uncrowded feel. Electricity, water and telecommunications can be connected, and the zoning leaves room for a home of up to two floors.

For those arriving from abroad, Larnaca International Airport is about 30 km away. Everyday shopping is a short drive from the land.

The sale is a 1/4 share of the whole field. It offers a residential setting by the coast in Zygi, where the beach and the village's cafés are part of daily life.
