Pelendri keeps the unhurried rhythm of a traditional Limasso...

For Sale : **€ 140,000**

Description
Pelendri keeps the unhurried rhythm of a traditional Limassol village. The heritage site of Timios Stavros and the green reaches of Troodos National Forest Park are both a short drive away.

This sizeable field lies close to the village centre. Its surroundings mix open parcels of land with some homes. The land sits in a residential zone, with room for a home of up to two floors. A long frontage onto a public road gives it direct road access.

Imagine a family home here, close enough to the village for an easy trip to the cafés or the shops. Beyond the village, the forest of Troodos invites slow weekend walks. It is an unpretentious setting where village life and the mountain landscape sit side by side.

The sale is for a 1/2 share of the field. What remains is open land on the edge of a village of real character, with the forest close by.
