For Sale : **€ 135,000**

Description
Lythrodontas sets the scene here, a Nicosia village where new homes stand alongside open, undeveloped land. Two adjoining fields come together as one sizeable piece of residential land, with the village centre a short drive away and neighbouring Mathiatis close by.

Together the fields cover 3,616 m². That gives generous room for a home. The residential zoning allows a house of up to two floors, so you can picture rooms rising over the land and looking out across the surrounding fields and village rooftops.

The land has no direct road access.

What stays with you is the setting: village life around you, residential neighbours on one side and open land on the other. Two fields read as one plot, with room for a home of your own in Lythrodontas.
