For Sale : **€ 114,000**

Description
Village life is right on the doorstep of these two fields in Kato Akourdaleia, which sit just beside the heart of the village. Together they cover 2,041 m² of residential land, and road frontage on two sides gives direct road access.

The immediate neighbourhood mixes homes with open, undeveloped parcels, and the zoning allows a home of up to two floors. Picture the morning stroll to the village centre for a coffee or a few errands, then home again to a house of your own design, with the everyday rhythm of the village carrying on around you.

Beyond the village, neighbouring Pano Akourdaleia is a short drive away, and so is Evretou Lake, close enough for an easy outing into nature.

An uncomplicated setting for a new home, at the centre of village life in Kato Akourdaleia.
