For Sale : **€ 110,000**

Description
Open, undeveloped land spreads all around these two adjoining fields in Mammari, a village in the Nicosia district with its own elementary school not far away. It is an unpretentious setting: a broad stretch of ground, the village close by and plenty of open space between neighbours.

Together the two fields form one sizeable piece of 6,356 m². The land is zoned for residential use, and the zoning allows homes of up to two floors. Side by side, the fields give room to imagine a home set among open land, with the life of the village nearby.

The land has no direct road access. It also lies within the UN Buffer Zone.

What remains is a large residential plot in Mammari, made up of two fields that sit together and are surrounded by open land on every side.
