For Sale : **€ 105,000**

Description
In Pano Deftera, among open parcels of land and a scattering of homes, this level residential plot offers room to build a home of your own, with village life only a short drive away.

The land is rectangular with an even, flat surface, a simple and practical shape for planning a house. At 744 m², it gives a family home room to settle in. It fronts a road, so there is direct road access, and water, electricity and telecommunication services already reach it. The residential zoning allows a home of up to two floors.

Everyday life stays within easy reach. A school sits close by, and the village centre, with its cafés and shops, is a short drive away. Main roads and motorway junctions are easy to reach for trips further afield, while the setting itself keeps the calm, open feel of a growing residential area.

A flat, serviced plot in a village setting, ready for the home you have in mind to take shape.
