

For Sale, Land, Field, Larnaca, Psematismenos

Close to the centre of Psematismenos, this residential field...

For Sale : **€ 109,000**

Description
Close to the centre of Psematismenos, this residential field brings village life to your doorstep, while the beaches of the Larnaca coast are only a short drive away. Larnaca International Airport is about 25 km off, and the motorway is within easy reach for trips across the island.

At 2,676 m², the land is sizeable, and it has direct road access, with a long frontage along a road on one side and a shorter one on the opposite side. Around it, homes sit among other undeveloped parcels, giving the setting a settled, residential feel.

The residential zoning leaves room for a home of up to two floors. Picture mornings in the village, afternoons by the sea and evenings back in a home of your own design, all within a few minutes of each other.

A sizeable plot, a village close at hand and the coast not far beyond make this a setting with real promise for a home in the Larnaca countryside.
