For Sale : **€ 102,000**

Description
Akaki keeps the unhurried rhythm of a Nicosia village. Its centre is a short drive away, and the nature spot of Lefkovounos is close by for time outdoors. This is the authentic side of village life, with everyday needs within easy reach.

The field covers 1,673 m² of residential land, with room for a home of up to two floors. Its rather square shape and smooth surface give a simple, honest canvas to plan around, where a house could take its place without fighting the lie of the land. Homes stand nearby among farmland and undeveloped parcels, so the setting feels part residential, part rural.

The land has no direct road access.

A square, even field in authentic village surroundings, waiting for the home you have in mind.
