Description
A short walk from the heart of Agios Amvrosios, this field sits among village homes and open parcels of land in the Limassol district. Picture strolling to the village centre for the morning's errands, then returning to a home of your own making. The land measures 2,342 m², with a regular shape and a rather flat surface that lets you imagine how a house could sit on it. It lies in a residential zone, which gives room for a home of up to two floors, and water, electricity and telecommunications can be brought to the land. The land has no direct road access. Beyond the village centre, the neighbouring village of Agios Therapon is a short drive away, and the Arkolia nature spot is within a drive for days out in the landscape. It is a sizeable residential plot, and it keeps everyday village life within an easy walk.
