For Sale : **€ 91,000**

Description
In Agros, a short drive from the village centre, lies a plot of 1,032 m² set among a mix of homes and open parcels of land. The village of Potamitissa is also a short drive away, so its neighbouring community stays within easy reach.

The land has direct road access along one of its borders, so getting onto it is straightforward. It sits in a touristic zone, which gives it room for tourist use, from hotels of up to three floors to a small tourist village. Homes of up to two floors are allowed too, so the plot could equally take a house of your own.

With its road frontage, its sizeable footprint and the flexibility of its zoning, this is land in the Agros area that leaves you more than one way to shape its future.
