For Sale : **€ 69,000**

Description
Close to the village centre of Pera Chorio and near the village church, this residential plot offers a level start for a home of your own. Homes and open parcels share the streets around it, giving the neighbourhood a settled village character that still has room to grow.

The land covers 700 m², with a flat surface and an irregular outline, and it fronts a road along one side, so it has direct road access. Its residential zoning allows a home of up to two floors, leaving you free to shape the rooms, the outdoor space and the layout around the way you want to live.

Everyday life stays simple here. The village centre is close by for errands and a coffee, and the area has easy access to the motorways linking Nicosia, Limassol and Larnaca, so the wider island is never far from your door.

A level piece of village land, a road at its edge and a home still waiting to be imagined: Pera Chorio gives that home a place to belong.
