Description
Close to the heart of Agioi Vavatsinias, this field of 3,577 m² sits among village homes and open parcels of land. It is a residential setting with a strong local identity, where village life carries on at its own unhurried rhythm.

The land lies in a residential zone and offers room for a home of up to two floors, with plenty of ground around it. It has direct road access, with frontage along a registered road.

Everyday life is easy to picture here. A school is within walking distance, and Kionia peak is a short drive away for time outdoors in the surrounding landscape.

Honest and uncomplicated, this is a large parcel of residential land where a home could take shape, just a few steps from the centre of the village.
