For Sale : **€ 58,000**

Description
Forest land and open countryside surround these three adjoining fields in Kato Platres, which together cover 14,550 m². The ground slopes, and the land has direct road access along its frontage. Undeveloped parcels and a few scattered homes make up the rest of the surroundings.

The villages of Mandria and Foini are a short drive away, as is the village centre, and main roads are easy to reach from the area. The land lies within a protection zone. Not all utility services reach it. It is one sizeable piece of sloping ground, made up of three parcels side by side.
