Description
A short walk from the heart of Lageia, this sloping field sits where the village gently gives way to open land. Undeveloped parcels and a scattering of homes surround it, and the village centre and its church are close at hand. It is a setting that keeps everyday Cypriot village life within easy reach.

The land covers 1,322 m² in a triangular shape and lies within a residential zone, offering room for a home of up to two floors. It has direct road access, with a long frontage onto the road along one side and a shorter frontage onto a footpath. The slope gives a future home a natural shape to work with.

The neighbouring village of Vavla is a short drive away, and so is Kalavasos Lake when you want time by the water and among the hills.

Picture a home rising on this slope, with the village centre within easy walking distance. A residential plot close to the life of Lageia, waiting for a house shaped around its land.
