Description
Village life around Tochni sets the tone for this sizeable field of 2,676 m². Its immediate surroundings are open, undeveloped parcels with a scattering of homes, and the village centre is a short drive away.

The land sits in a residential zone, so there is room to plan a home of your own here, built to up to two floors. With this much ground, there is real freedom in deciding how a house could sit on the plot and how it might take in the open land around it.

The field has no direct road access.

What remains is honest, simple land with a residential purpose. It lies among the villages of the Larnaca district, with neighbouring Kalavasos and Psematismenos also a short drive away, and the everyday rhythm of Tochni close at hand.
