A short walk from the heart of Mosfiloti, this residential p...

For Sale : **€ 55,000**

Description
A short walk from the heart of Mosfiloti, this residential plot sits where village life meets the countryside. Around it lie forest land, undeveloped parcels and a scattering of homes, giving the setting a green, open character away from dense building. It is a place to picture a family home taking shape, with the village close by and woodland all around.

The land covers 526 m² in a neat rectangular shape and has direct road access along its frontage. Water, electricity and telecommunications are already available, so the practical groundwork is in place. The residential zoning allows a home of up to two floors, and the regular outline lets you set your design priorities from the very start.

Everyday life stays close at hand, with schools within walking distance of the plot. Larnaca International Airport is about 20 km away, which keeps trips abroad simple.

A welcoming village setting, a tidy plot and services in place make this a fine starting point for a carefully planned home in Mosfiloti.
