Description
In Nisou, farmland and undeveloped plots open out around a scattering of homes. This residential field offers room for a home of your own in that open, uncomplicated landscape, away from dense building.

The land covers 502 m² and fronts a road, giving it direct road access. Its residential zoning allows a home of up to two floors. That is enough to picture a family house shaped around your own plans, with the open village landscape all around it.

Everyday life stays within easy reach. The village centre is a short drive away, and the Nicosia–Limassol motorway is easily reached for trips to either city. The setting feels calm and rural, yet it stays well connected to the rest of the island.

A modest plot in a village setting, waiting for the home you have in mind.
