For Sale : **€ 38,000**

Description
Just outside Liopetri village, homes sit side by side with open parcels of land, giving the area a settled residential feel while it still has room to breathe. Here, a residential plot runs along the road with direct road access and a long frontage on one side, so arriving is simple from the very first visit.

The residential zoning allows room for a home of up to two floors. It is easy to picture a family house here, with the village close enough for everyday life. The village centre is a short drive away for errands, coffee and the familiar rhythm of village life. Liopetri National Forest Park is also a short drive away, offering green open space for walks and quiet weekends.

Liopetri keeps the warmth of a Famagusta village, and this land puts you on its doorstep, among neighbouring homes. The sale is a 1/14 share of the plot.

A residential plot with direct road access on the edge of a living village, waiting for the home it was zoned for.
