Description
Within the village boundaries of Fasoula, a short drive from the village centre, two adjoining fields together cover 11,372 m². The neighbouring villages of Mathikoloni and Palodeia are also a short drive away, and the Limassol–Paphos Motorway is within a drive.

The ground is steeply sloping and the land has an irregular shape. It lies in a protection zone, which limits its use. Together, the two parcels form one sizeable stretch of sloping land within Fasoula.
