Description
A short walk from the centre of Kalavasos, this compact piece of residential land offers room for a home within easy reach of village life. Supermarkets and shops are within walking distance, so everyday errands can be done on foot. Around the plot, homes sit alongside open parcels of land.

The land measures 150 m² and has direct road access along one side. Its residential zoning allows a home of up to two floors. That is a modest footprint, but it opens the way to building upwards in a setting rooted in the village rather than the town.

Beyond the streets of Kalavasos, the lake is a short drive away for time outdoors. The Nicosia–Limassol motorway is also within easy access for trips further afield.

A small plot with a clear purpose: a home of your own, with the life of the village close by.
