

For Sale, Land, Field, Nicosia, Kokkinotrimithia

Between the village centre of Kokkinotrimithia
and Nicosia M...

For Sale : **€ 830,000**

Description
Between the village centre of Kokkinotrimithia and Nicosia Mall, eight fields come together as one sizeable holding of 25,497 m². The area around them is a mix of industrial and commercial developments and open, undeveloped parcels, giving the land a working setting within easy reach of the capital's outskirts. Parts of the land fall within three different planning zones. One part is zoned for industrial use, suited to business activity, and sits comfortably beside the developments that already shape the neighbourhood. Another part is agricultural, suited to farming. A further part lies in a protection zone, which limits its use. One of the eight fields fronts a registered road and has direct road access. The other seven fields have no direct road access. Life around Kokkinotrimithia keeps its village character, with Paliometocho and Agioi Trimithias a short drive away and everyday shops close at hand. Eight fields, three zones and a setting where village and business meet give this holding plenty to consider.
